## VAR MS Home Learning - Structure of Daily Activities

- **Office Hours:** *Students may call a teacher during these times to receive one on one support for their work. We recommend that students e-mail their teachers to schedule a set time that they can talk to their teachers during this time.*
- **Zoom Meetings:** *These are times that teachers will instruct students via video conferencing. Students are expected to attend the Zoom Conferences for each subject taught in their grade level. Teachers will share meeting codes with families the week of April 6<sup>th</sup>.*

7<sup>th</sup> Grade

Module 4 Lesson 4

Independent Practice

1. A store advertises 15% off an item that regularly sells for \$300.

a. What is the sale price of the item?

b. How is a 15% discount similar to a 15% decrease? Explain.

c. If 8% sales tax is charged on the sale price, what is the total with tax?

d. How is 8% sales tax like an 8% increase? Explain.

2. An item that was selling for \$72.00 is reduced to \$60.00. Find the percent decrease in price. Round your answer to the nearest tenth.

3. A baseball team had 80 players show up for tryouts last year and this year had 96 players show up for tryouts. Find the percent increase in players from last year to this year.

## 7<sup>th</sup> Grade

### Module 4 Lesson 5

#### Independent Practice

**Use a double number line to answer Problems 1-3.**

1. Tanner collected 360 cans and bottles while fundraising for his baseball team. This was 40% of what Reggie collected. How many cans and bottles did Reggie collect?

2. Emilio paid \$287.50 in taxes to the school district that he lives in this year. This year's taxes were a 15% increase from last year. What did Emilio pay in school taxes last year?

3. A snowmobile manufacturer claims that its newest model is 15% lighter than last year's model. If this year's model weighs 799 lb., how much did last year's model weigh?

**Use factors of 100 and mental math to answer Problems 4–6. Describe the method you used.**

4. Toya can run one lap of the track in 1min. 3sec., which is 90% of her younger sister Niki's time. What is Niki's time for one lap of the track?

5. An animal shelter houses only cats and dogs, and there are 25% more cats than dogs. If there are 40 cats, how many dogs are there, and how many animals are there total?

6. Alexis and Tasha challenged each other to a typing test. Alexis typed 54 words in one minute, which was 120% of what Tasha typed. How many words did Tasha type in one minute?

## 7<sup>th</sup> Grade

### Module 4 Lesson 6

#### Independent Practice

1. Lucy's savings account has 35% more money than her sister Edy's. Together, the girls have saved a total of \$206.80. How much money has each girl saved?
  
2. Bella spent 15% of her paycheck at the mall, and 40% of that was spent at the movie theater. Bella spent a total of \$13.74 at the movie theater for her movie ticket, popcorn, and a soft drink. How much money was in Bella's paycheck?
  
3. On a road trip, Sara's brother drove 47.5% of the trip, and Sara drove 80% of the remainder. If Sara drove for 4 hours and 12 minutes, how long was the road trip?
